STUDENT DISCIPLINE AND CONSEQUENCES

Pertaining to All Rockwood Students

STUDENTS AND PARENTS ARE ENCOURAGED TO READ THIS THOROUGHLY
Policies, Regulations, Procedures and Consequences: Student Discipline

This special publication of the specific policies pertaining to students, enacted by the Rockwood School District Board of Education, has been prepared as a means to better inform students and parents of existing policies as related to student discipline. It is hoped that this information will provide a basis of understanding between the home, school and community.

Again, this year, the handbook will be available online. The move to this online handbook will save the district printing and processing costs. It also aligns with district efforts to conserve resources and limit paper use. Families who wish to have a printed handbook may request one from their school principal.

All policies and regulations included in this publication were recently reviewed and revised by various school administrators. Recommended changes in existing and new policies have been approved by the Rockwood Board of Education. In addition, the Rockwood Board of Education has approved a behavioral code for students attending Rockwood Schools.

This booklet does not include special rules developed by the principal and staff of an individual building. It is the responsibility of the principal of each building to keep students and their parents or guardians informed of any special rules developed for the operation of that particular school. Such rules will be consistent with the policies of the Rockwood Board of Education. Parents and students who have questions about the intent or meaning of any of these policies are urged to contact school officials.

Revised 8/16/2022
Student Discipline: Policy 2605

The Board has the legal authority to make all needed policies, rules and regulations for organizing and governing the district. This includes the power to suspend or expel a student for conduct which is prejudicial to good order and discipline in the schools or impairs the morale or good conduct of the student. These policies, rules and regulations will apply to all students in attendance in District instructional and support programs, as well as at school sponsored activities and events. School officials are authorized to hold students accountable for misconduct away from school or in non-school activities which negatively affects the educational environment to the extent allowed by law. The district recognizes the rights of students to off-campus expressive activities, including on the internet, to the extent permitted by law. Students who have been charged, convicted or pled guilty in a court of general jurisdiction for commission of a felony may be suspended in accordance with law.

Student Discipline: Regulation 2605

Building principals are responsible for the development of rules and regulations regarding student conduct needed to maintain proper behavior in schools under their supervision. Principals, subject to appropriate due process procedures, may summarily suspend any student for up to ten (10) school days for violation of these policies, rules and regulations. Notice of suspension shall be given immediately to the parent/guardian and to the Superintendent/ designee. In cases where student discipline is appealed to a higher District authority, such an appeal shall be considered on a fair, unbiased, deliberate and non-deferential basis.

Flagrant disregard for policies, rules and regulations, or continued truancy may result in suspension by the Superintendent/designee or expulsion by the Board, both subject to appropriate due process procedures. The Superintendent/designee may suspend a student for up to 180 school days; however; expulsion of students is a function only of the Board.

Teachers shall have the authority to make and enforce necessary rules for the internal governance in the classroom; subject to review by the building principal. The Board expects each teacher to maintain a satisfactory standard of conduct in the classroom.

Any time a referral that warrants formal disciplinary action is submitted, a reasonable effort will be made by the principal to either contact the
parent/guardian by written notice delivered by the student, through the mail, or by direct telephone contact.

All employees of the District shall annually receive instruction related to the specific contents of the District's discipline policy and any interpretations necessary to implement the provisions of the policy in the course of their duties, including but not limited to approved methods of dealing with acts of school violence, disciplining students with disabilities, and instruction in the necessity and requirements for confidentiality.

No student may be confined in an unattended locked space except in an emergency situation while awaiting the arrival of law enforcement personnel. For the purpose of this policy, a student is unattended if no person has visual contact with the student, and a locked space is a space that the student cannot reasonably exit without assistance.

A copy of the District's comprehensive discipline policy will be provided to every student and parent/guardian at the beginning of each school year and will be available in the Superintendent/designee's office during normal business hours.

Suspension: Policy 2662

Alternative learning placement, suspension and/or expulsion may be utilized and/or recommended by the principal in accordance with the discipline policy. Students under suspension or expulsion are not allowed on school property and may not attend or participate in school activities (home or away) without special permission from the principal. The superintendent/designee may suggest or require any other follow-up professional services deemed appropriate for any level of discipline.

Suspension: Regulation 2662

In-School Suspension/Student Support Center

This placement is defined as an alternative learning environment within the student’s own school for support in the areas of discipline, social or emotional learning, or other student support needs. The student shall be assigned for ten (10) school days or less to an alternative learning environment. The student may make up work for credit.
Long Term In-School Suspension

This placement is defined as removal of the student from his/her assigned classrooms and daily schedule for disciplinary purposes.

The student shall be assigned for more than ten (10) school days to an alternative learning environment located in one of the district’s schools as designated by the district. The student is allowed to make-up written work and labs for credit wherever possible as determined by the administration. When the consequence for a misbehavior states there may be a recommendation to the superintendent/designee for an additional 170 school days, the superintendent/designee may desire to give the student the option to participate in this program.

Out-of-School Suspension

This type of suspension is defined as removal of the student from the school premises for disciplinary purposes. The principal may suspend for ten (10) school days. To suspend for more than ten (10) school days, a recommendation must be made to the superintendent/designee who may suspend up to 180 school days. On all suspensions for more than ten (10) school days, the student has the right to appeal the decision by requesting a hearing before the Board.

Expulsion: Policy 2663

This type of suspension is defined as removal of the student from school premises for disciplinary purposes for an indefinite period of time from the district schools. This action requires that the principal suspend the student for ten (10) school days. The principal may recommend to the superintendent/designee that the student is expelled and the superintendent/designee may then make a recommendation to the Board that such action be taken. The superintendent/designee may also make a recommendation to the Board for expulsion without the principal’s recommendation. The Board must act on this recommendation, but the student has a right to a hearing before the Board if requested.

Student Code of Conduct: Policy 2610

The Student Code of Conduct is designed to foster student responsibility, respect for the rights of others, and to ensure the orderly operation of District schools. No code can be expected to list each and every offense which may result in the use of disciplinary action. However, it is the
purpose of this code to list certain offenses which, if committed by a
student, will result in the imposition of a certain disciplinary action. Any
conduct not included herein, or any aggravated circumstance of any
offense or action involving a combination of offenses may result in
disciplinary consequences that extend beyond this code of conduct as
determined by the principal, superintendent/designee and/or Board.

Student Discipline Policies and Regulation apply to all school sponsored
activities and modes of transportation. Discipline records will be sent to
Colleges/Universities if requested.

Any and all suspension for assault, weapons or 10 days or more must be
documented in the student's permanent records.

Schools are not responsible for lost or stolen personal items.

**Corporal Punishment: Policy 2670**

No person employed by or volunteering for the district shall administer or
cause to be administered corporal punishment upon a student attending
district schools.

**Student Code of Conduct: Regulation 2610**

The district recognizes that honesty in academic endeavors is essential and
the basis for true success. The district, therefore, will not tolerate any form
of academic dishonesty including plagiarism or "the taking of ideas or
writings from someone else and presenting them as one's own" (Webster's
New World, 1996). In order to deal appropriately with issues of academic
honesty, the district uses the following definitions:

**Academic Dishonesty**

Includes, but is not limited to, bringing answers into a testing area, copying
homework or assessments from another student, providing answers for
another student, using unauthorized notes or technology, taking credit for
work that one didn't do by failing to acknowledge parent, friend, or tutor
assistance.

**Plagiarism**

Level 1: Though most of the work is the student's, a few lines or phrases of
text or a paragraph is used without proper attribution.
Level 2: A significant portion of the work is not the student's and is not cited. This would include use of multiple paragraphs of someone else's work, use of someone's ideas, and/or repeated paraphrasing of someone else's work without attribution.

Level 3: Little, if any, of the work is the student's; most, if not all, of the work has been copied verbatim or copied and slightly altered.

A range of consequences may be implemented for academic dishonesty based on grade level (elementary, middle, high school).

**Bullying/Cyberbullying**

The district is committed to a safe and civil educational environment, conducive to teaching and learning in an environment free from threat, harassment and any type of bullying behavior. Bullying of students is prohibited on all school property, at any school function, and on a school bus.

Bullying is defined as the intimidation, unwarranted aggressive behavior, or harassment that is repetitive or is substantially likely to be repeated and causes a reasonable student to fear for his or her physical safety or property, substantially interferes with the educational performance, opportunities or benefits of any student without exceptions; or substantially disrupts the orderly operation of the school. Bullying may consist of physical actions, including gestures, or oral, cyber-bullying, electronic, or written communication, and any threat of retaliation for reporting such acts. (Refer to Policy 2612 - Bullying)

Cyberbullying is defined as bullying under this policy through the transmission of a communication including, but not limited to, a message, text, sound, or image by means of an electronic device including, but not limited to, a telephone, wireless telephone, or other wireless communication device, computer, or pager. Pursuant to Missouri Statute Section 160.775, the district has jurisdiction to prohibit cyberbullying that originates on a school's campus or at a district activity if the electronic communication was made using the school's technological resources, if there is a sufficient nexus to the educational environment, or if the electronic communication was made on the school's campus or at a district activity using the student's own personal technological resources. The school district may discipline any student for such cyberbullying to the greatest extent allowed by law.

Students are encouraged to report behavior they consider to be bullying to their teacher or the principal.

**Employee Reporting**

District employees must report any instance of bullying of which the employee has firsthand knowledge. The principal at each school is hereby designated the individual at each school to receive reports of incidents of

Within two days of receiving the report, the principal or his/her designee shall initiate an investigation of the incident. The principal may appoint other school staff to assist in the investigation, as needed. The investigation shall be completed within ten school days from the date of the written report unless good cause exists to extend the investigation.

The district prohibits reprisal or retaliation against any person who reports an act of bullying and the consequence and appropriate remedial action for a person who engages in reprisal or retaliation.

Publication and Training

This policy will be publicized annually in the Student Code of Conduct. The district will provide annual notice of the policy to students, parents or guardians and staff.

All employees of the district shall receive information regarding this policy and staff who have significant contact with students will receive annual training related to the district's bullying policy to enable them to implement the provisions of the policy in the course of their duties.

Students will receive education and information regarding bullying, including information regarding this policy, the harmful effects of bullying, and other applicable initiatives to address bullying, including student peer-to-peer initiatives to provide accountability and policy enforcement for those found to have engaged in bullying, reprisal, or retaliation against any person who reports any act of bullying. To this end, the administration will instruct the district counselors, school social workers, licensed social workers, mental health professionals, and school psychologists to educate students who are victims of bullying on techniques for students to overcome bullying's negative effects. Such techniques shall include, but not be limited to, cultivating the student's self-worth and self-esteem; teaching the student to defend himself or herself assertively and effectively; helping the student develop social skills; or encouraging the student to develop an internal locus of control. The administration shall implement programs and other initiatives to address bullying, to respond to such conduct in a manner that does not stigmatize the victim, and to make resources or referrals available to victims of bullying.

School administrators will investigate the reason for use of an electronic device by a student to determine if other district policies are also applicable, which could result in an increase in the discipline. Such option shall depend upon the nature and severity of the misconduct at issue, as well as any prior misconduct. In the event the student is offered and the parent accepts enrollment in the ISS, the student will not be recommended for expulsion. Acceptance of such enrollment shall also constitute a waiver of the student's right to a hearing before the Board of Education regarding any long-term suspension (suspension of more than ten (10) days) that may
have been imposed in connection with the transfer of the over-the-counter medication.

The administration will discuss any proposed suspension under the Student Drug and Alcohol Policy with the superintendent/designee.
